**DETAILED ACTION**

***Response to Amendment***

1. The rejection of claims 16-19 under 35 USC 112, first paragraph, is withdrawn in view of the amendment filed on 5/22/09.
2. The rejection of claims 1, 16 and 17 are under 35 USC 112, second paragraph, is withdrawn in view of the amendment filed on 5/22/09.

***Allowable Subject Matter***

3. Claims 1-21 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As per claims 1 and 16, none of the prior art on record teaches a block-constrained TCQ method comprising the combination of constraining the number of initial states of a Trellis structure and number of states in the last stage dependent upon the initial states, referring to the initial states of the Trellis paths determined under the state constraint from a first stage to stage  $L - \log_2 N$ , considering Trellis paths in which an allowed state of the last stage is selected among  $2^{v_k}$  states determined by each initial state under the constraint on the state of a last stage by the constraining in remaining  $v$  stages and obtaining an optimum Trellis path among the considered Trellis paths and transmitting the optimum Trellis path.

As per claims 2, 8, 18 and 20, none of the prior art on record teaches the combination of quantizing a first prediction vector obtained by inter-frame and intra-

frame prediction using an LSF coefficient vector and a second prediction error vector obtained in intra-frame prediction, using a block-constrained Trellis coded quantization.

It would not have been obvious to one of ordinary skill in the art at the time of invention to modify the prior art on record to arrive at Applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
